

Consultation notice Project QC-2026-04

May 2026

Notice recipients

Entities listed in the Register of Entities Subject to Reliability Standards
North American Electric Reliability Corporation, Inc. (NERC)
Northeast Power Coordinating Council (NPCC)
NPCC Reliability Coordinators
Régie de l'énergie du Québec (the "Régie") [Québec Energy Board]

Consultation period: May 4, 2026 to May 25, 2026.

Purpose of the consultation

In accordance with the process established by the Régie in Decisions [D-2011-139](#) and [D-2023-049](#), the Québec Reliability Coordinator (the "Coordinator") is asking Registered Entities for comments on the following standard in view of its eventual adoption by the Régie:

New Standard

- PRC-029-1 – Frequency and Voltage Ride-through Requirements for Inverter-based Resources

New standard version:

- PRC-024-4 – Frequency and Voltage Protection Settings for Synchronous Generators, Type 1 and Type 2 Wind Resources, and Synchronous Condensers

Standard to be retired:

- PRC-024-3 – Frequency and Voltage Protection Settings for Generating Resources

The Coordinator solicits the feedback of Registered Entities on matters regarding the relevance and impact of the proposed standard. For this purpose, please provide your comments using the online consultation form under this notice available on the Public consultation of entities page of the Coordinator's website: (<https://www.hydroquebec.com/reliability-coordinator/documentation/consultation.html>), making sure to clearly identify the related section to which your comments pertain.

You may also send your questions and feedback directly to the following address: fiabilite@hydro.qc.ca.

Documents

- Proposed standards and Québec appendices
- Summary of the standards to be adopted, including preliminary assessment of their relevance and impact
- Redline standard
- Redline appendix

- Standards Technical Rationale
- Glossary modifications
- Implementation Guidance for PRC-029-1.
