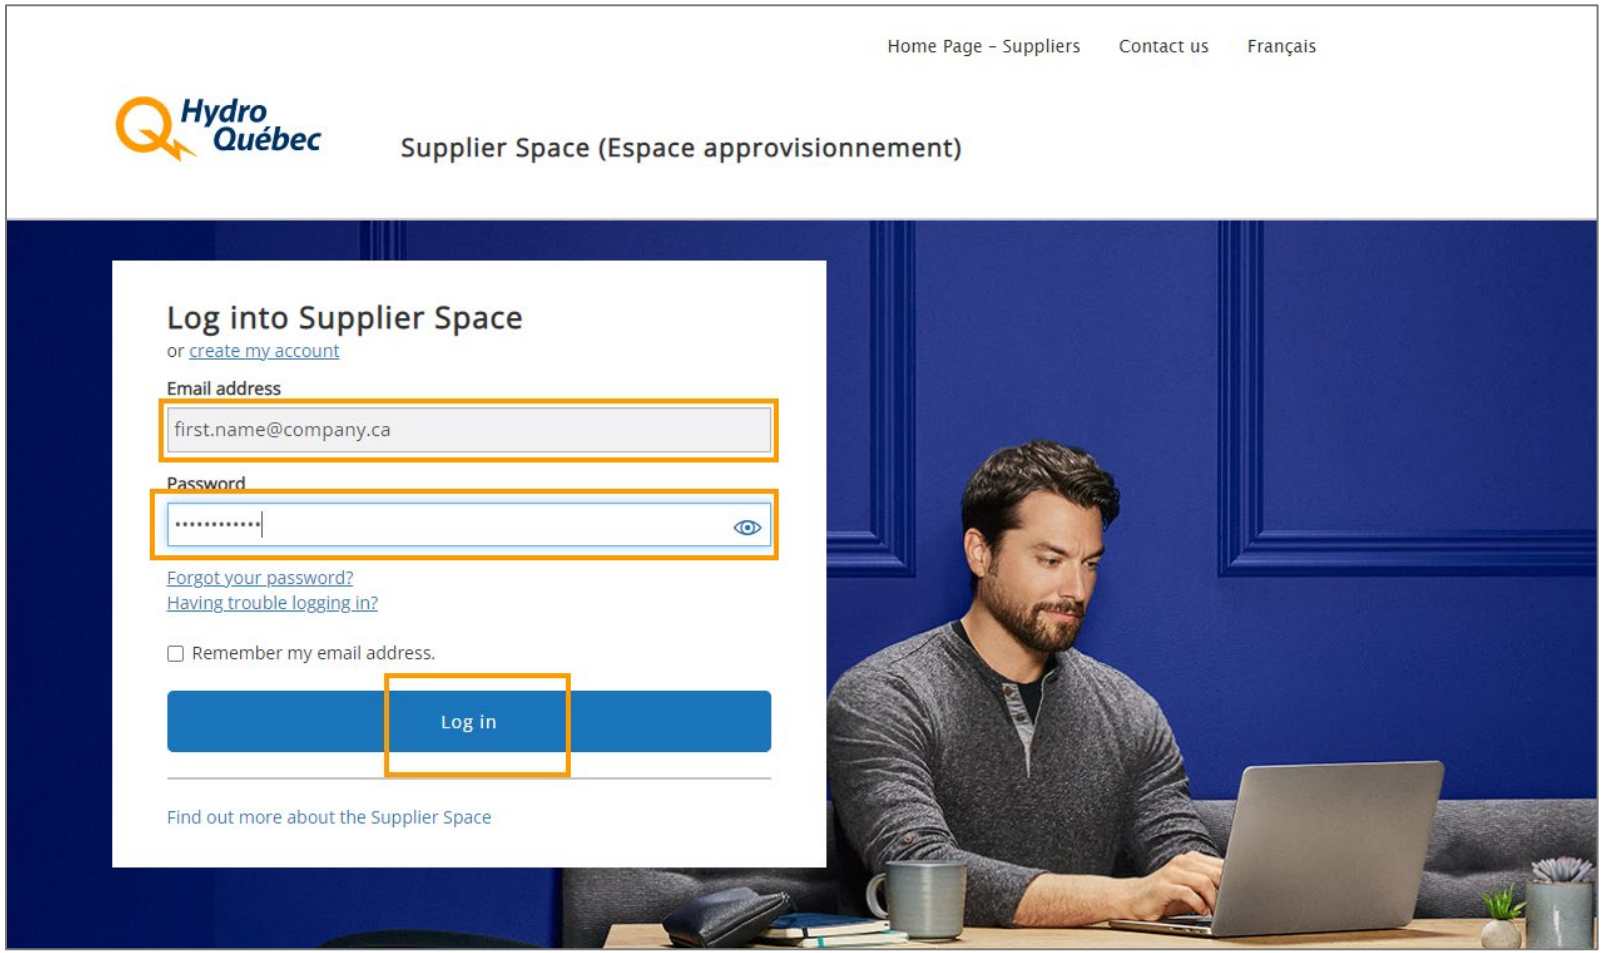
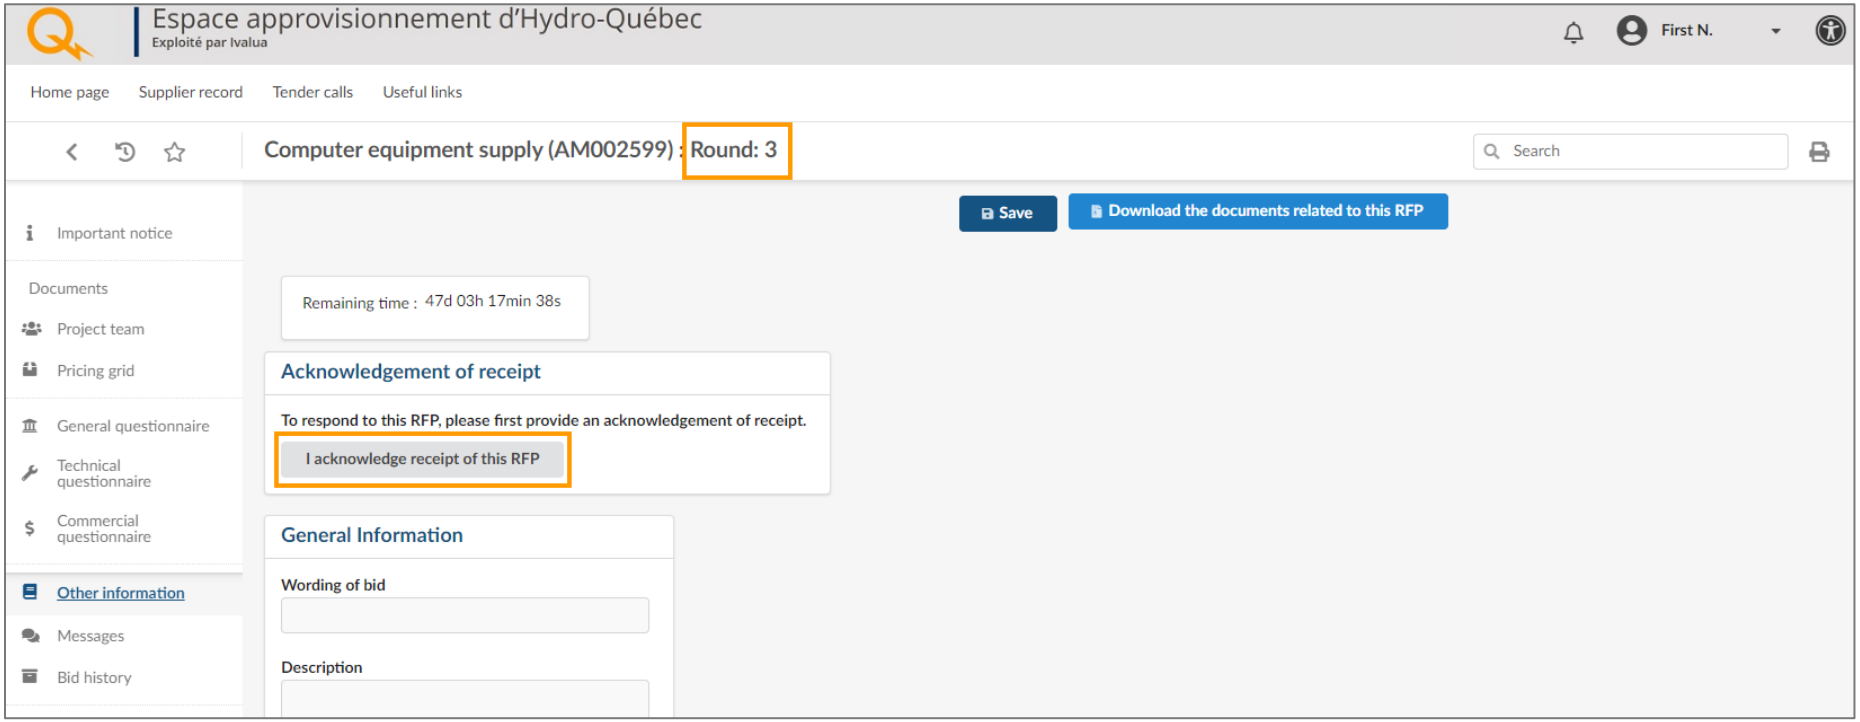
You will now be prompted to login in.



© Hydro-Québec, 2022 – Consult a new version of a tender call

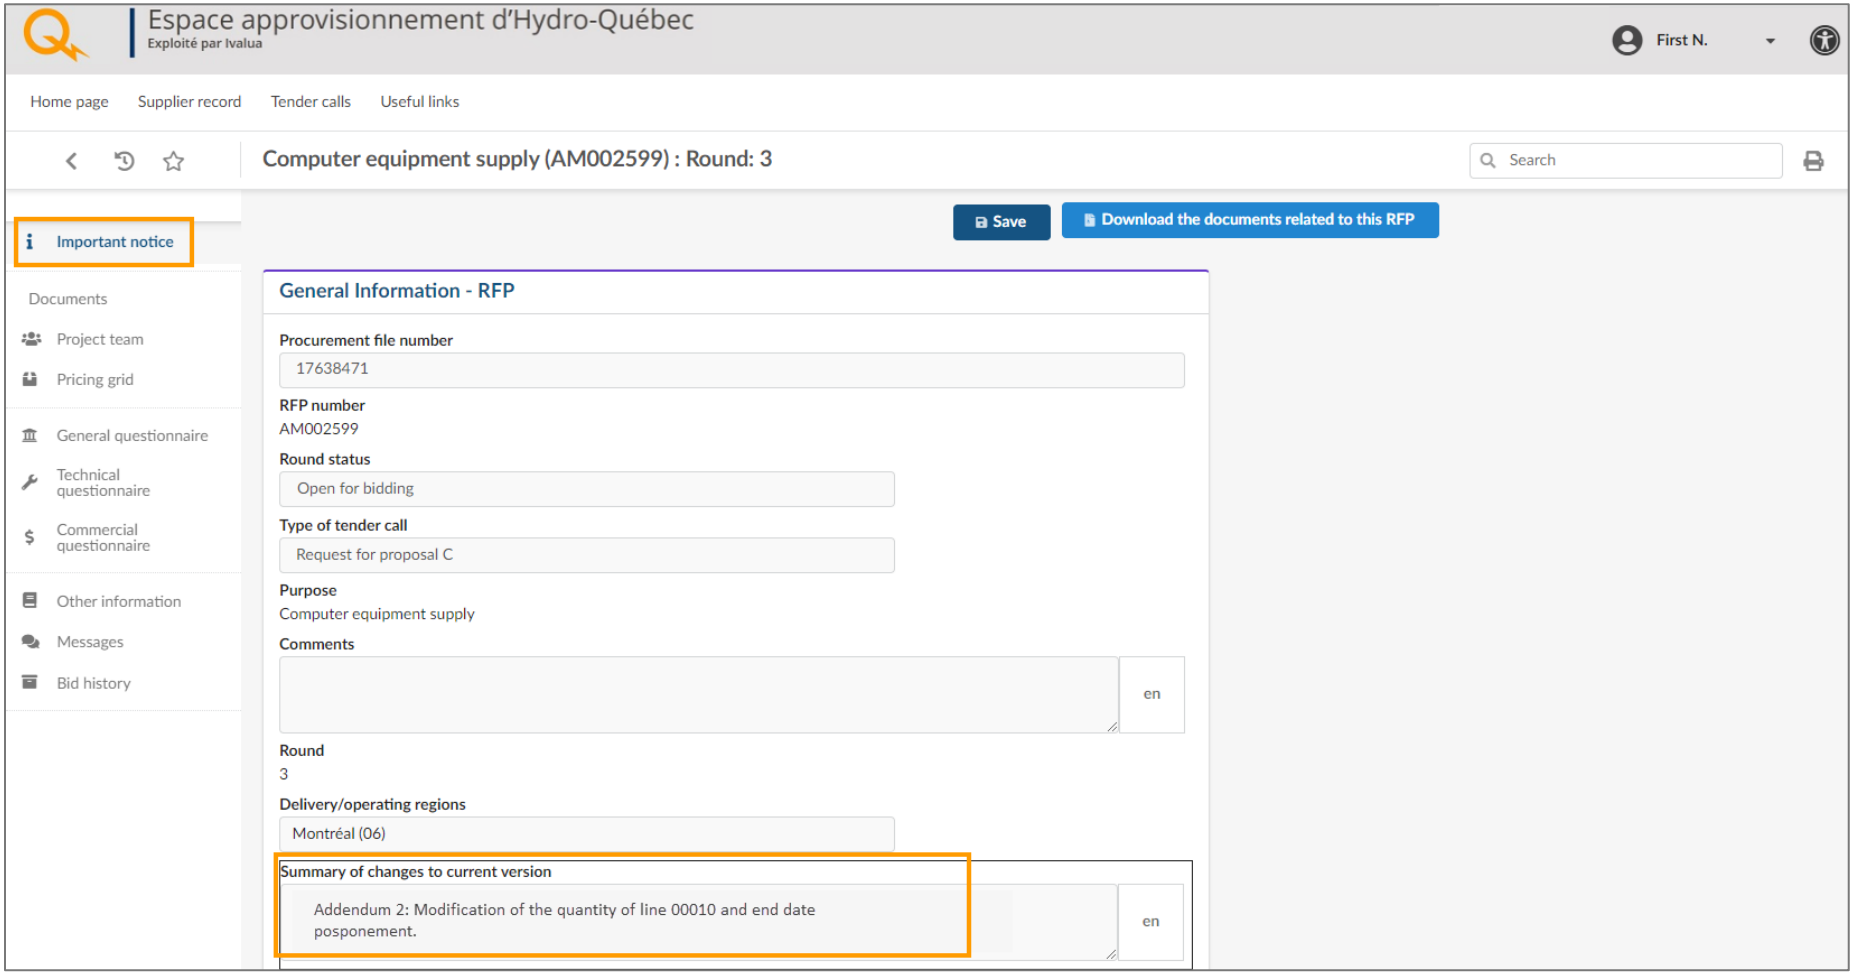
You now have access to the new version of the tender call.

Acknowledge receipt of the new version.

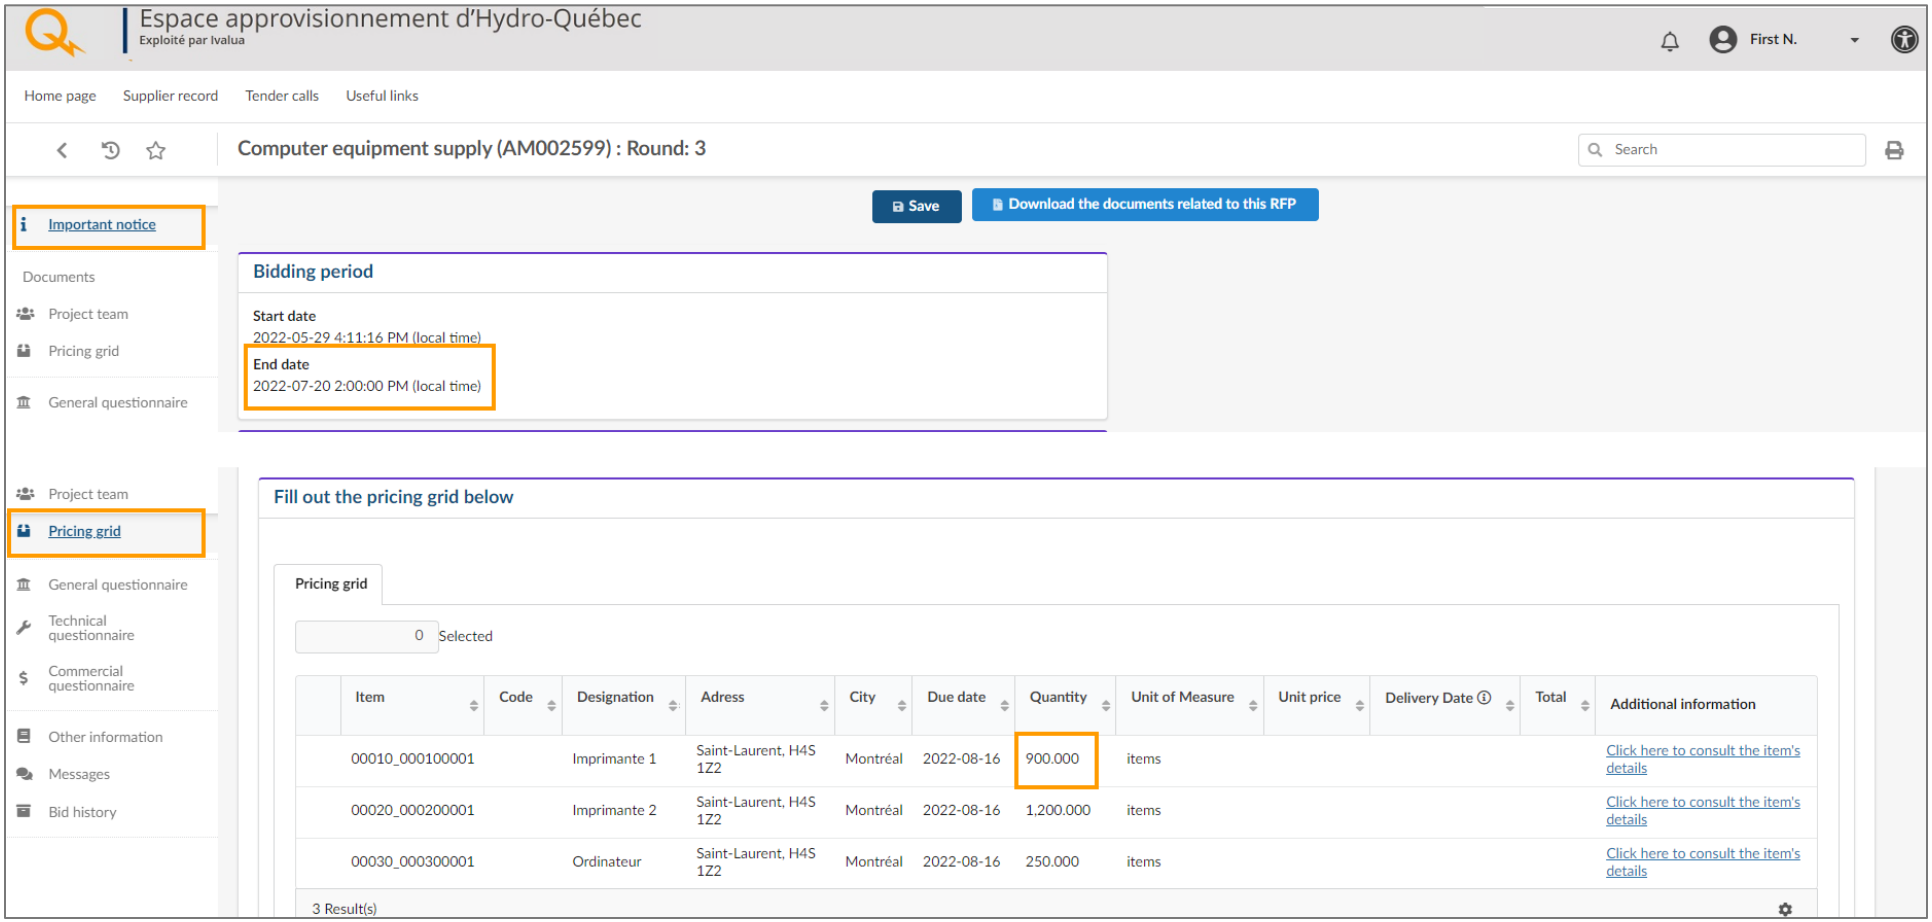


Take note of the changes made by consulting the "**Important notice"** section.

The "**General information–RFP"** section contains a summary of what's new, compared with the previous version.

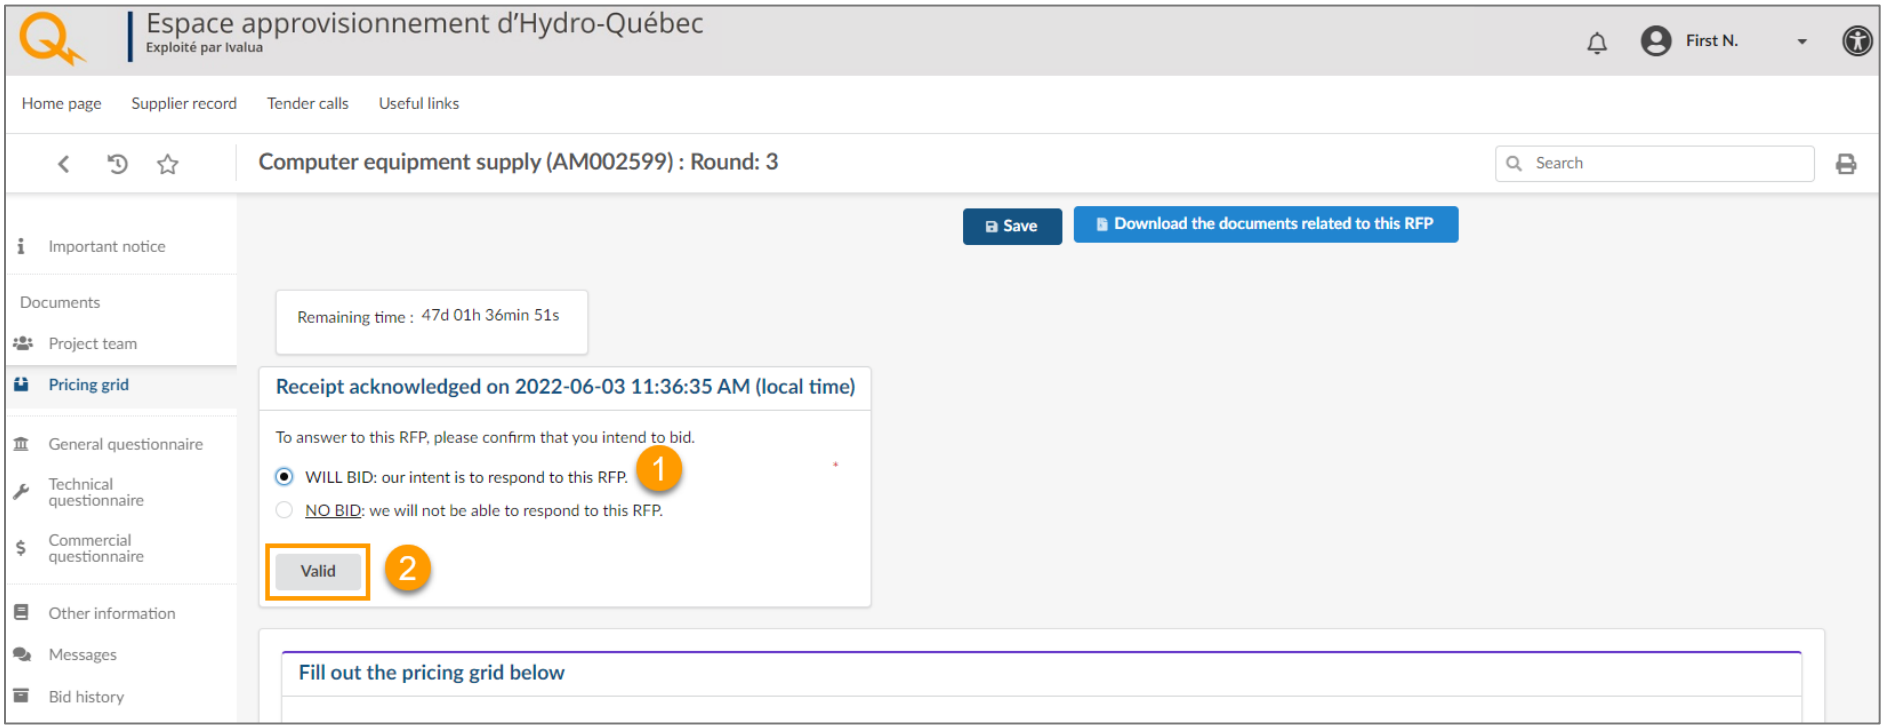


View the changes made in the relevant sections.



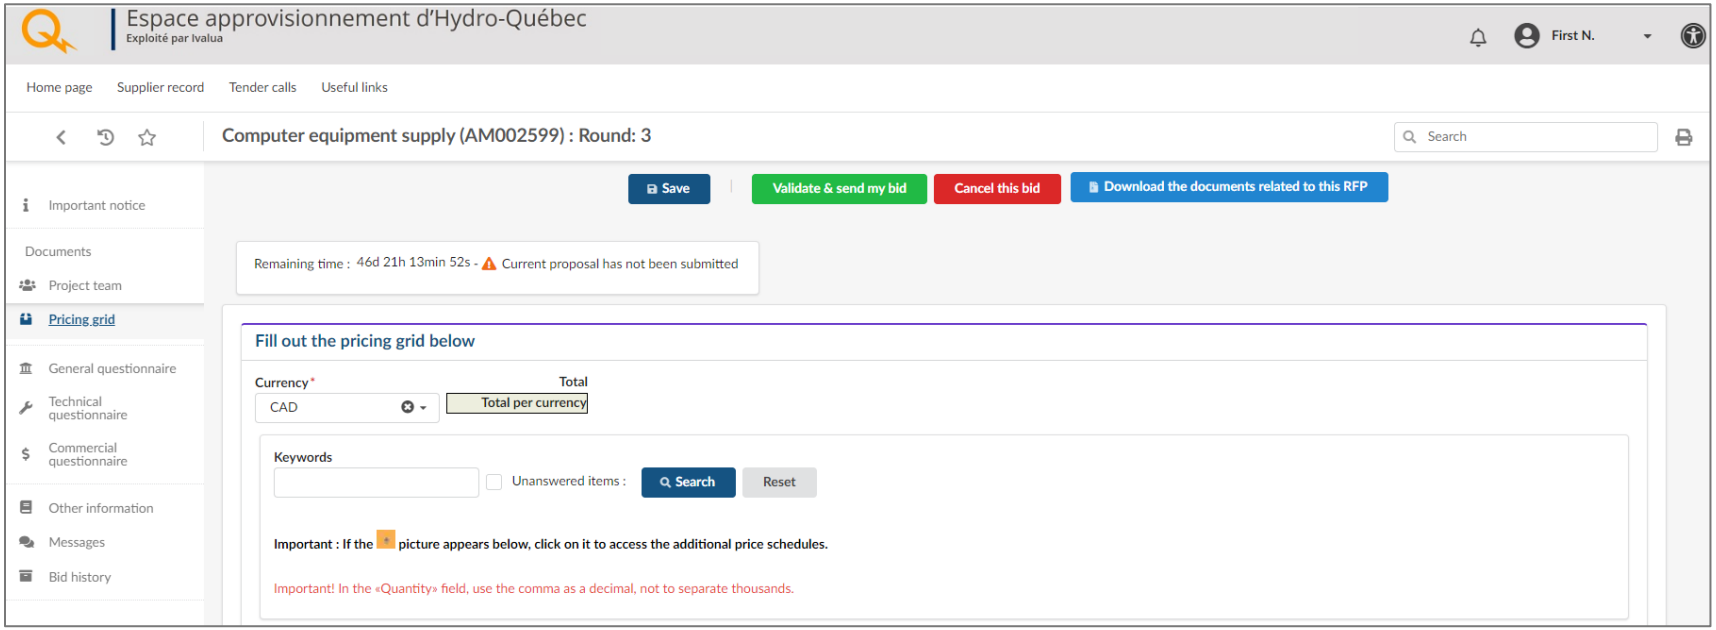
Confirm tour attention to bid (or not) on this new version.

Note: if you wish to cancel a bid that was already submitted for the previous version of the call, you don't have to do anything since only bids pertaining to the new version will be considered.



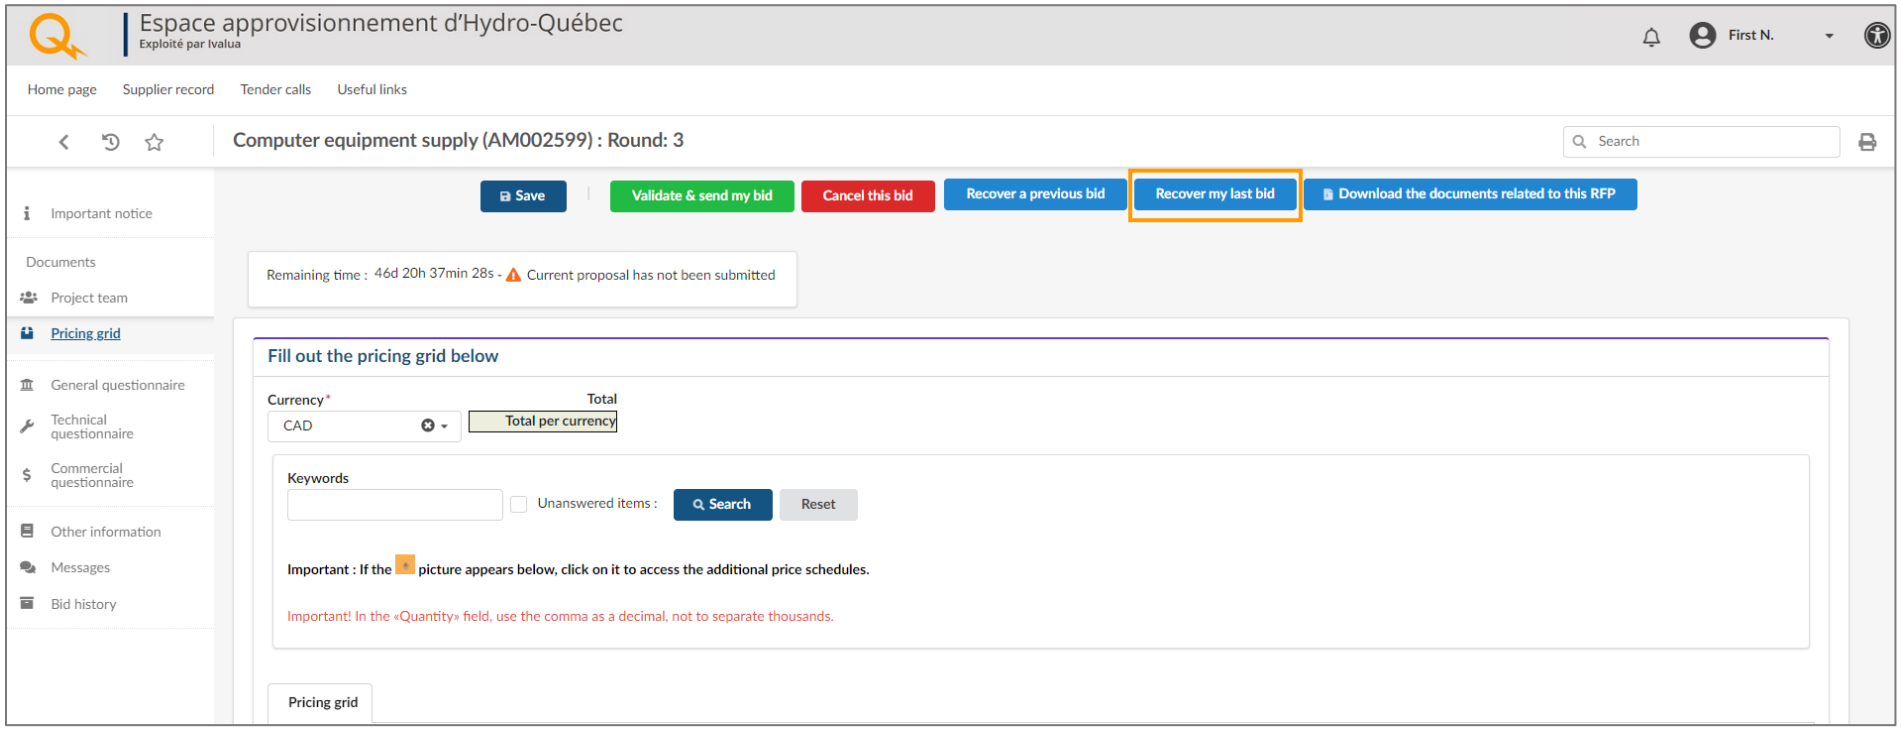
If you wish to continue with the process, you must resubmit your bid. There are two possible scenarios:

1. You have not yet begun submitting your bid: please read "**I want to bid–What do I need to do?"** document.

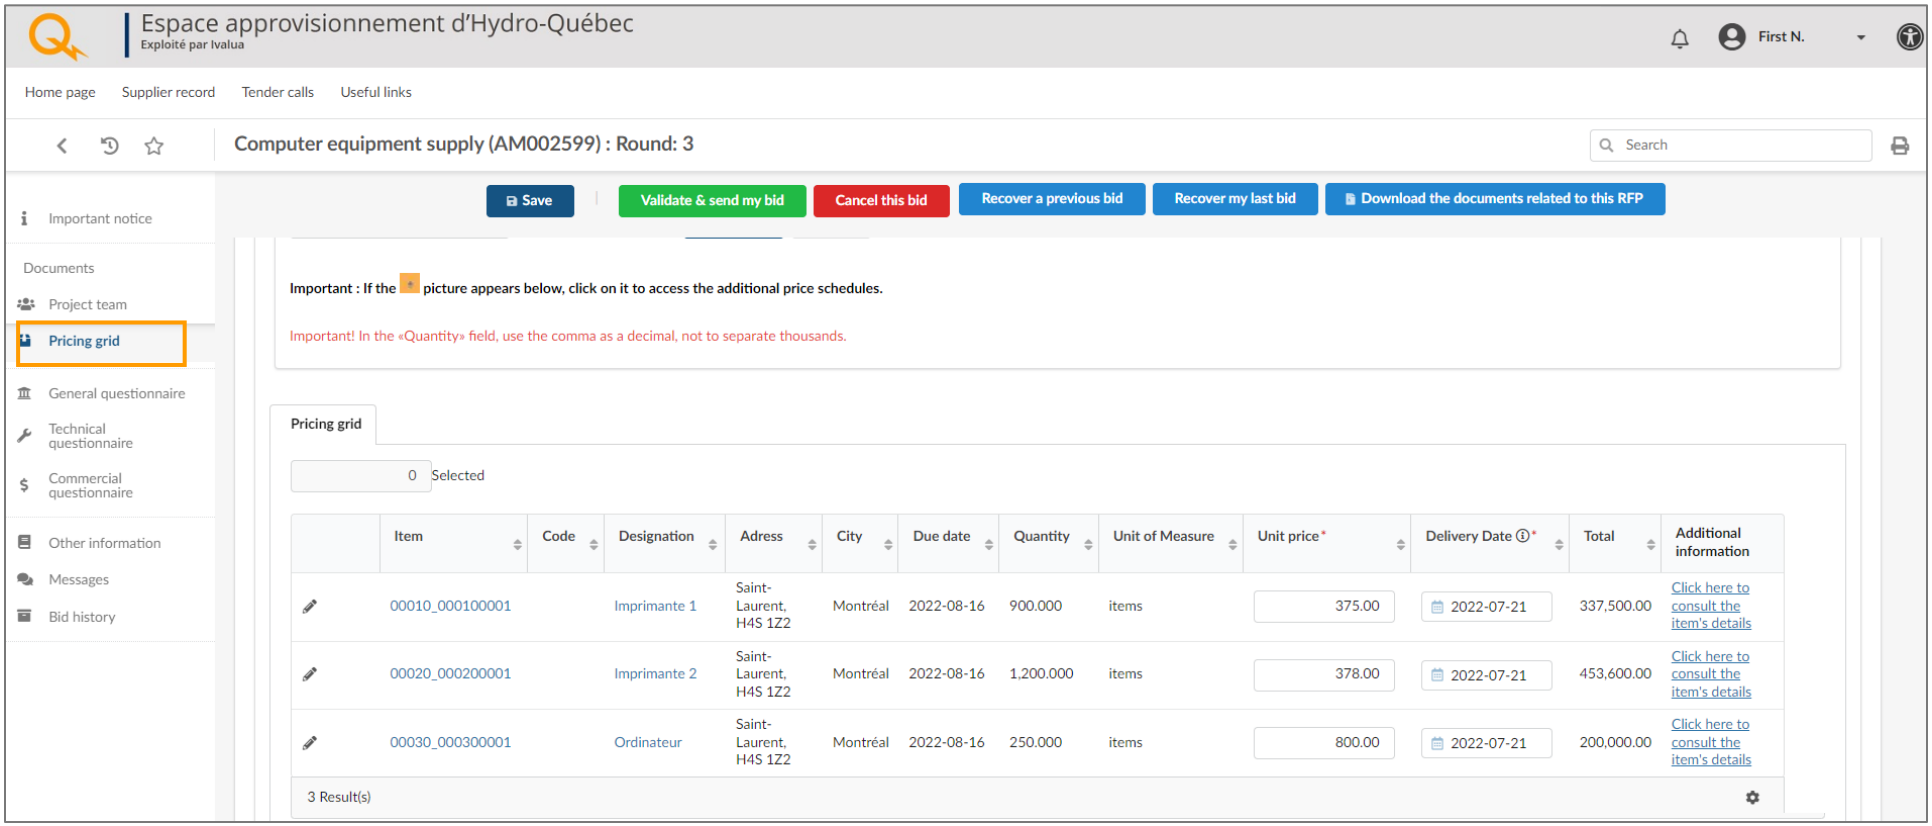


2. You had already begun submitting your bid or you had already submitted it. In this case, recover your last bid.

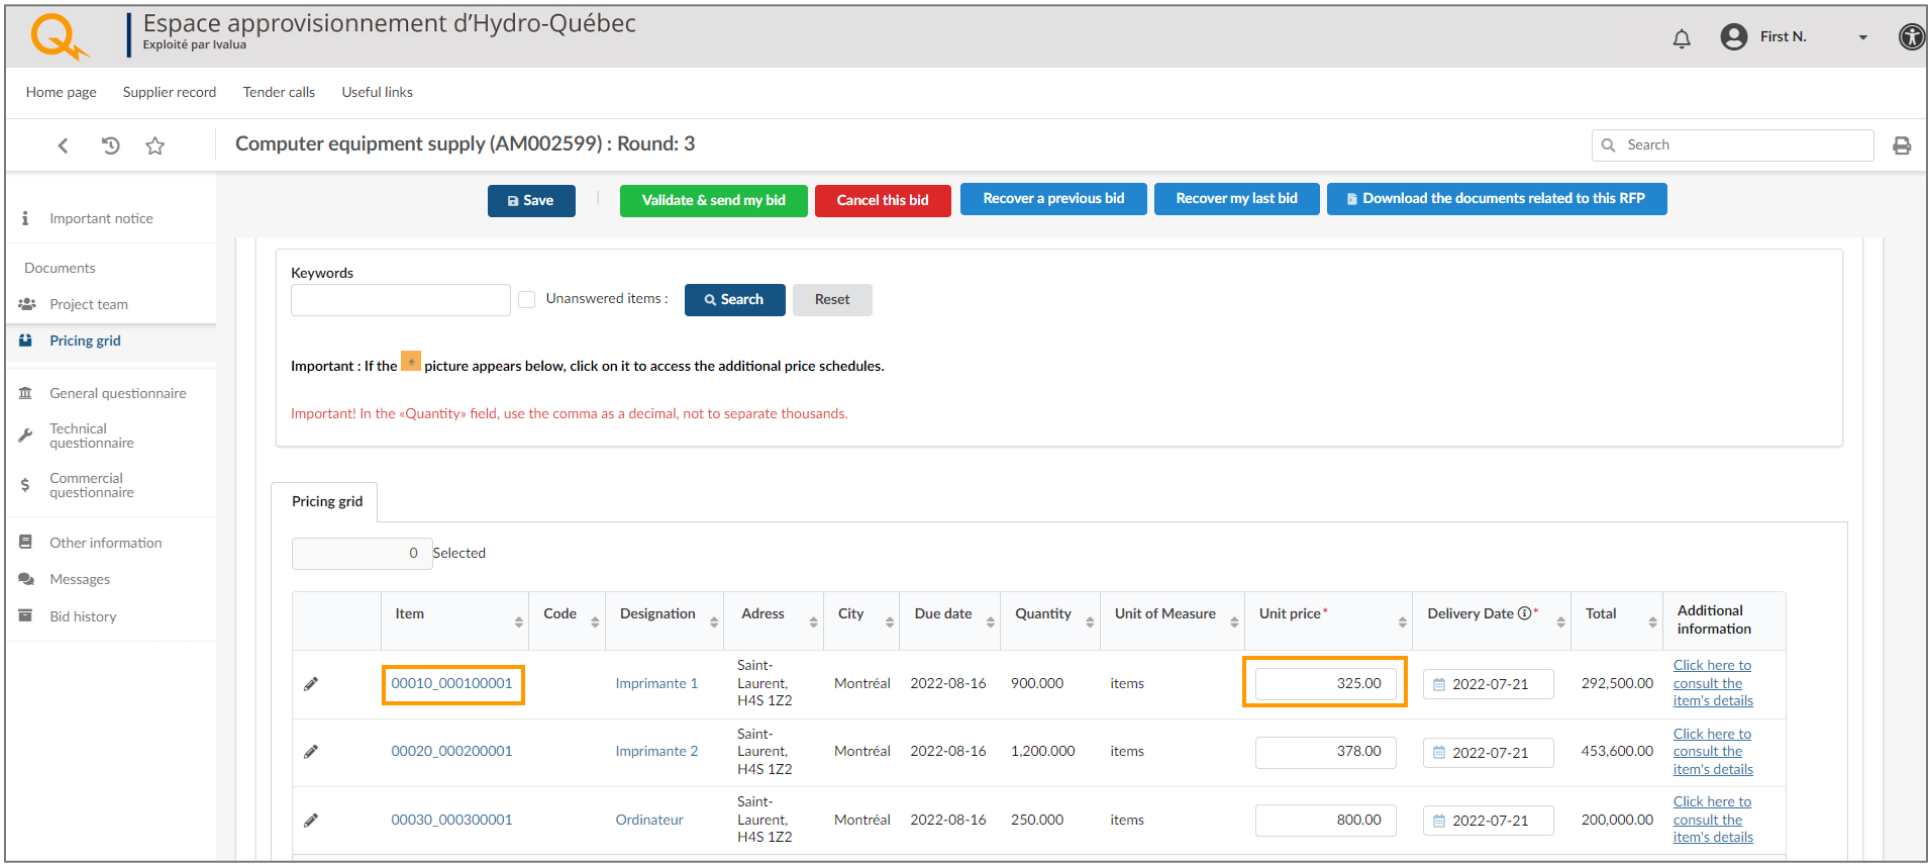
Click on "**Recover my last bid**" button, and respond to the changes made in the new version.



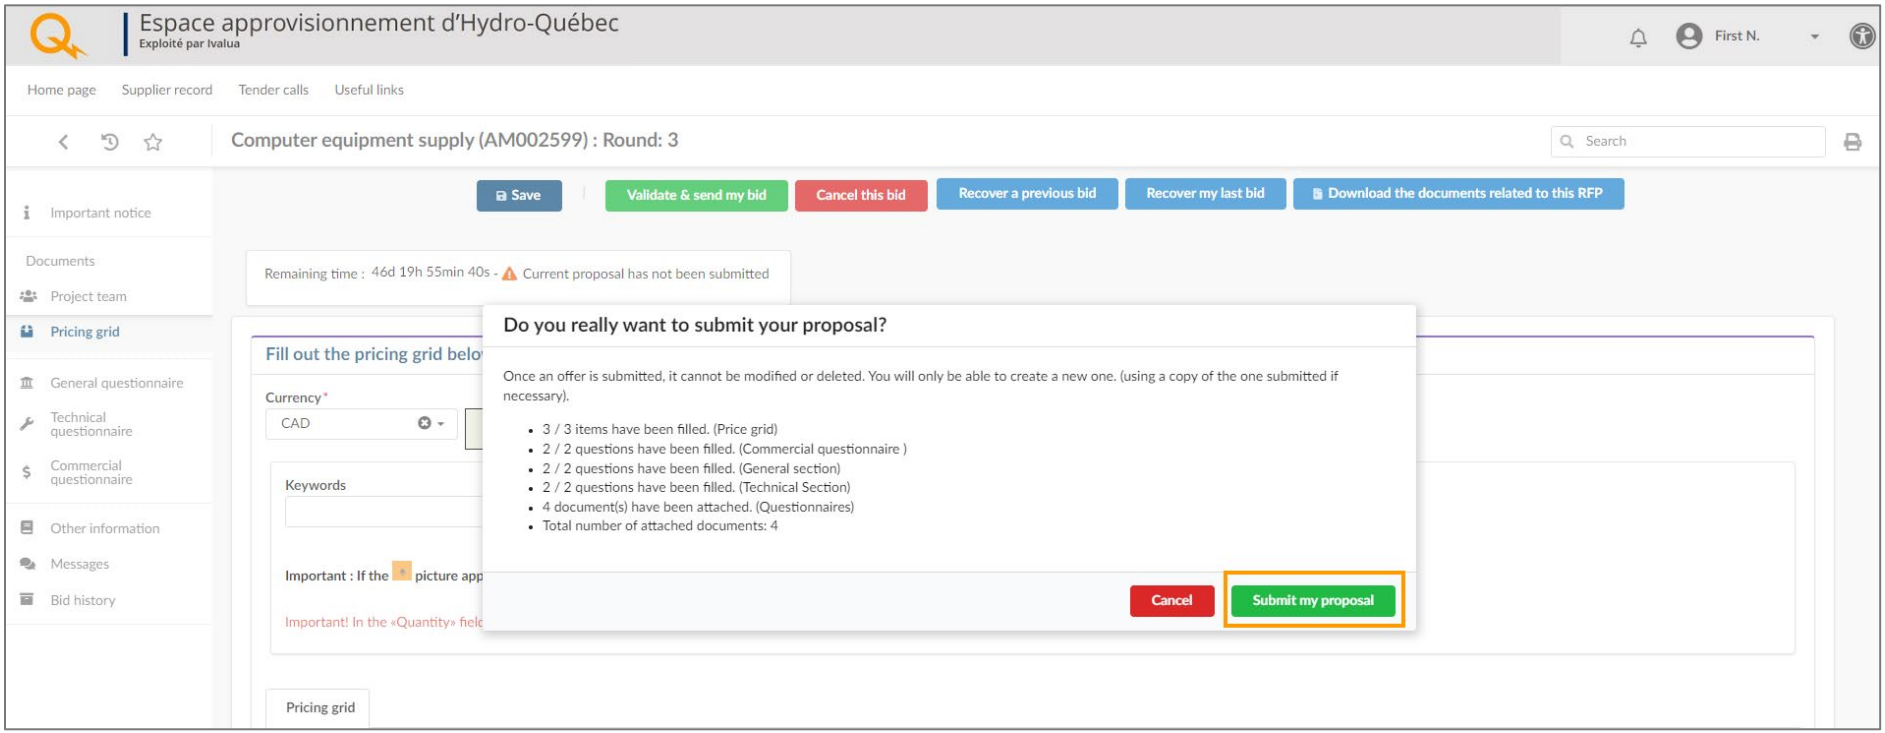
Go to the section where changes in your answers are required. In this example, on the pricing grid was modified.

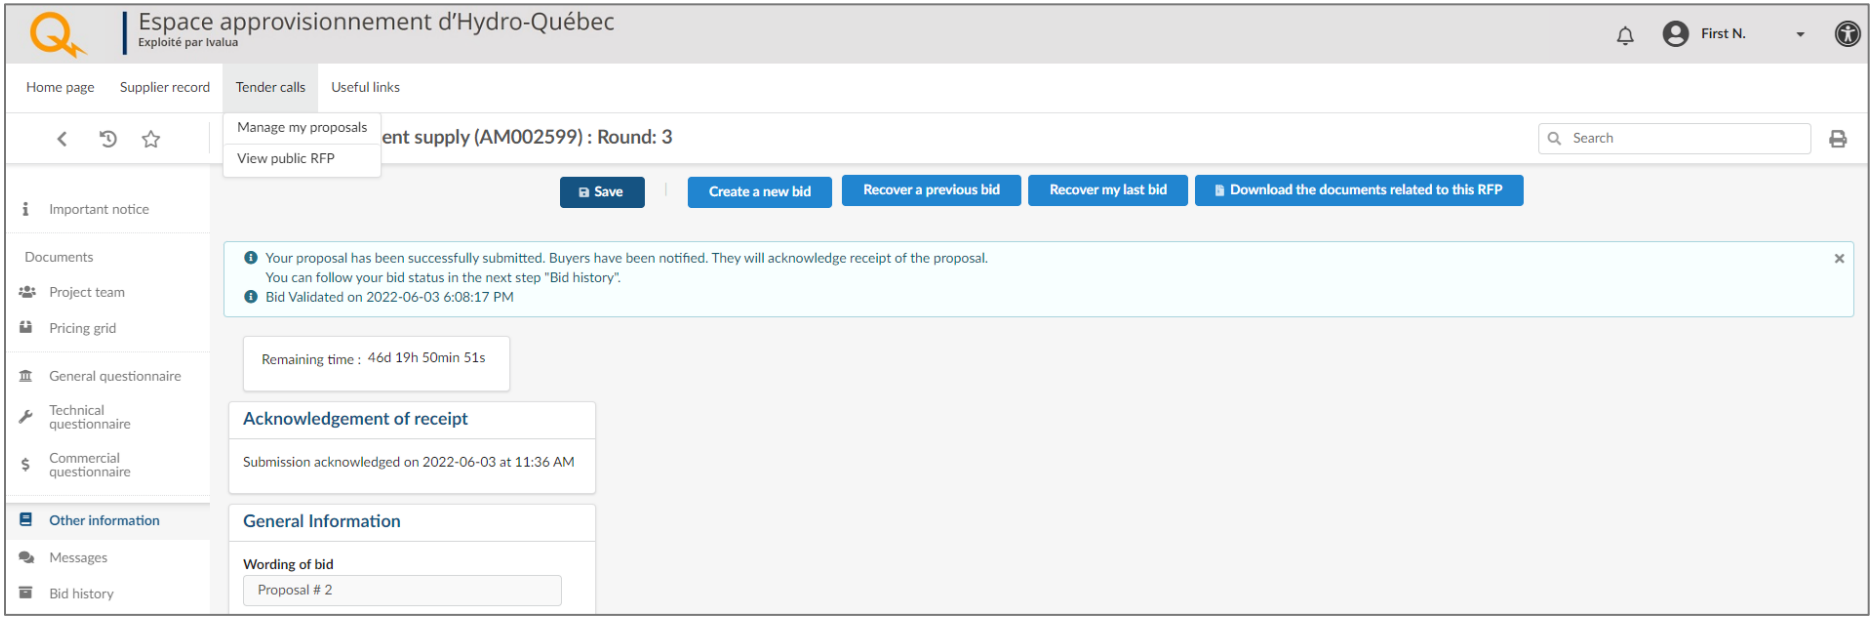


Modify the response elements as needed. Then, click on **Validate & Send my bid** button.



When your bid is complete, click on **Submit my proposal** button.





Hydro-Québec representative will acknowledge receipt of your proposal when he begins its analysis.
