

Consultation notice - revised Project QC-2018-01

June 2018

In accordance with the Régie de l'énergie du Québec's decision [D-2011-139](#), the Reliability Coordinator for Québec (the "Reliability Coordinator") is soliciting comments from registered entities and stakeholders on reliability standards and other documents to be filed with the Régie de l'énergie du Québec for adoption or approval, depending on the nature of each document.

Notice recipients

- Entities listed in the Register of Entities Subject to Reliability Standards
- North American Electric Reliability Corporation (NERC)
- Northeast Power Coordinating Council, Inc. (NPCC)
- NPCC Reliability Coordinators
- Régie de l'énergie du Québec (Régie)

Consultation period: June 1st, 2018 to June 18th, 2018

- Comments must be received no later than June 18th, 2018 at 23:59.

Purpose of the public consultation

The purpose of the current public consultation is to ensure coherence between the Québec reliability regime and neighboring jurisdictions. The Coordinator wishes to file with the Régie two new versions of standards currently in effect in Québec. As the new standards are brought into effect, the two previous versions will be retired.

- **New standards or versions:**
 - CIP-002-5.1a -- Cyber Security — BES Cyber System Categorization;
 - CIP-003-7 -- Cyber Security — Security Management Controls;
- **Standards to be retired :**
 - CIP-002-5.1
 - CIP-003-6

The Reliability Coordinator solicits your feedback on the proposed reliability standards and Québec appendices with respect to their impact and relevance. For this purpose, please use the online form available on the consultation page of the Reliability Coordinator's website; (<http://www.hydroquebec.com/transenergie/reliability/consultation.html>), making sure to clearly identify the document (and the section of the document) to which your comments pertain. You may also send your questions and feedback directly to the following address: fiabilite@hydro.qc.ca.

Documents in support of the consultation

- Two standards, including Québec appendices
- A summary informational document for each of the two standards with a preliminary assessment of the relevance and impact of the proposed standards
- The modifications to the Glossary of Terms and Acronyms used in Reliability Standards
